Dunlop , AFP USA Published on Wednesday 11 March 2020 at 21:45 Updated on Thursday 12 March 2020 at 14:30 Copyright AFP 2017-2020. All rights reserved. Social media users are claiming that people can get a novel coronavirus test by donating blood. This is false; the two organizations responsible for collecting the vast majority of the blood supply in the United States said they are not testing for COVID-19. "CORONAVIRUS LOOPHOLE!!!!!! If you don't have insurance and can't afford to take the \$3200 test for the virus (\$1000 with insurance), DONATE BLOOD. They HAVE to test you for the virus in order to donate blood. Tell your friends! Tell your family!!!!!!" said one tweet, which was retweeted nearly 100,000 times and liked more than 300,000 times before a user deleted it. A screenshot of a now-deleted tweet taken on March 11, 2020 "I don't want to contribute to hysteria or medical misinformation," the user -- whose location is given as New York -- wrote on Twitter, explaining why she deleted the tweet about blood donation allegedly leading to testing

What are the functions provided?

The screenshot shows the PANACEA web application. On the left, there is a sidebar with filters: Source Filter (All Sources, Select Sources, leadstories, FactCheck.org, @politifact), Relevance Filter (All Results, Score above 30%, Score above 60%), Type Filter (All Types, Select Types), and Stance Filter (All Stances, Select Stances). The main content area displays search results for the claim "If you donate blood, 'they HAVE to test you' for coronavirus." The results are sorted by article, showing a list of articles with their titles, sources, and relevant scores. A red box labeled 'c-1' highlights the 'More' button in the sidebar. A red box labeled 'c-2' highlights the 'More' button in the results list. A red box labeled 'd' highlights the first result, "Donating blood in US does not get you a novel coronavirus test". A red box labeled 'e' highlights the details for the first result, including the type (Article), source (FactCheck.org), relevant score (undefined), and stance (Support).

- Users could search a new claim they would like to check here. The previous searched claim is also kept in this box.
- The overall altitude to the searching claim is displayed here.
- Results filter, which users can choose whether the results are sorted by article or sentence. For advance filters, users could click the "More" button and choose to filter the results by source, relevance, type, and stance, as shown in c-2.
- The result listed: if sort by article, it would show the related article title and representative sentences; if sort by sentence, it would show the sentence and its context.
- Key information about the corresponding result, including type, source, relevant score, and stance.

The screenshot shows the detailed view of a search result for the claim "If you donate blood, 'they HAVE to test you' for coronavirus." The main content area displays the document content, including the title "Donating blood in US does not get you a novel coronavirus test" and the source "FactCheck.org". A red box labeled 'f' highlights the search result text. A red box labeled 'g' highlights the document content. A red box labeled 'h' highlights the link to the original page for this article. A red box labeled 'i-1' highlights the link to share current page to the main social media. A red box labeled 'j' highlights the pie chart showing the stance of current article to the text searched by user. A red box labeled 'i-2' highlights the tweet sharing window.

- The text searched by user.
- The article.
- The link to the original page for this article.
- The link to share current page to the main social media, after clicking it would pop out the window for sharing (as shown in i-2).
- The pie chart showing the stance of current article to the text searched by user.

Some use cases.

PolitiFact - No, blood donors don't automatically get a coronavirus test

[Full document in @politifact](#) | [Share](#) [Twitter](#) [Facebook](#) [Email](#)

Document Content:

They HAVE to test you for the virus in order to donate blood. Tell your friends! Tell your family!!!!!! This post was flagged as part of Facebook's efforts to combat false news and misinformation on its News Feed. (Read more about our partnership with Facebook.) We've already looked into claims that coronavirus testing costs \$3,200. You can read more about it here but we rated them Mostly False. This claim that blood donation centers have to test donors for coronavirus won't fare as well. The American Red Cross, which runs blood drives around the country, told PolitiFact that this isn't true. Featured Fact-check YouTube videos stated on December 26, 2020 in a viral video A registered nurse in Nashville, Tenn., developed Bell's Palsy after receiving the COVID-19 vaccine. By Daniel Funke • December 30, 2020 "There is no test to screen blood donations for the coronavirus and other respiratory viruses," the organization said in an email. "It's important to emphasize that there are no data or evidence that this coronavirus can be transmitted by blood transfusions and there have been no reported cases of transfusion transmission for any respiratory virus including this coronavirus." But the Red Cross is urging healthy, eligible Americans to donate blood to help avoid potential shortages caused by the coronavirus. It's also asking people who have been diagnosed with COVID-19 or come into contact with a person who has or is suspected to have the disease to postpone making a donation for 28 days. Kate Fry, chief executive officer of America's Blood Centers, told the Associated Press that the network of nonprofit blood centers "do a whole range of testing on blood donations as required by the FDA, but screening or testing is not happening

Fact Check: Donating Plasma Or Blood Is NOT Free Testing For The Coronavirus | Lead Stories

[Full document in hoax-alert](#) | [Share](#) [Twitter](#) [Facebook](#) [Email](#)

Document Content:

According to information on the Red Cross website: DO NOT DONATE TO GET A TEST! If you think you may be at risk for HIV/AIDS or any other infection, do not donate simply to get a test. ASK us where you can be tested outside the blood center. The following symptoms can be present before an HIV test turns positive: Fever, Enlarged lymph glands, Sore throat, Rash. DO NOT donate if you have these symptoms! WHAT HAPPENS AFTER YOUR DONATION To protect patients, your blood is tested for several types of hepatitis, HIV, syphilis, and other infections. If your blood tests positive, it will not be given to a patient. There are times when your blood is not tested. If this occurs, you may not receive any notification. You will be notified about any positive test result which may disqualify you from donating in the future. The blood center will not release your test results without your written permission unless required by law (example: to the health department). We maintain a confidential list of people who may be at risk for spreading transfusion-transmitted diseases. By continuing this process, you consent to be entered in this confidential list of deferred donors if you are at risk for spreading such diseases. When required, we report donor information, including test results, to health departments, military medical commands, and regulatory agencies. Donation information may also be used confidentially for research related to blood safety. The Red Cross offers tips for dealing with the deadly Coronavirus outbreak here: Lead Stories has reached out to the Red Cross for comment about the false posts on Twitter and Facebook. Want to inform others about the accuracy of this story? <https://leadstories.com/hoax-alert/2020/03/Fact-Check-Donating-Plasma-Or-Blood-is-NOT-Free-Testing-For-The-Coronavirus.html> <https://leadstories.com/hoax-alert/2020/03/Fact-Check-Donating-Plasma-Or-Blood-is-NOT-Free-Testing-For-The-Coronavirus.html>

April Fool's Posts Falsely Claim Students Must Repeat the School Year - FactCheck.org

[Full document in FactCheck.org](#) | [Share](#) [Twitter](#) [Facebook](#) [Email](#)

Document Content:

One prank-generating website has been used to make dozens of false headlines, including many versions of a claim that students will have to repeat the school year: "All Virginia students will repeat current grade next year" "California: Students will repeat their grade for the 2021 school year" "Governor announces all children in TN will repeat same grade next year" "All Pennsylvania kids to repeat their current grade next year" "NJ to repeat current grade next year" "All Illinois Students to Repeat Current Grade Next Year" All of these posts, which were shared on Facebook, link back to the prank-generating website that shows this message: "April Fools! " But if users don't click through, all they see is what looks like a regular news headline paired with a picture of a public official. In the case of the headlines above, most featured a picture of the governor of the state that was named. **While many schools have closed in an effort to stop the spread of the novel coronavirus that causes COVID-19, we haven't found any indication that students will have to repeat a grade.** All of the states mentioned above — Virginia , California , Tennessee , Pennsylvania , New Jersey , and Illinois — have closed schools. Some have suspended testing requirements. **But none have recommended repeating the school year.** The same prank site has created a spate of other bogus headlines, including some that fuel rumors we've already debunked . So, be wary of alarming headlines shared on social media. Like the fake posts about the school year, they may not be true. Editor's note: FactCheck.org is one of several organizations working with Facebook to debunk misinformation shared on social media. Our previous stories can be found here . Sources Prank Mania, About Prank Mania . Accessed 1 Apr 2020. "Governor Northam Orders Statewide Closure of Certain Non-Essential Businesses, K-12 Schools ." [governor.virginia.gov](#) (23 Mar 2020)

Document Content:

FACT CHECK: Viral Post Claims Nancy Pelosi Was In China 6 Days After Trump's Impeachment Acquittal | Check Your Fact FACT CHECK: Viral Post Claims Nancy Pelosi Was In China 6 Days After Trump's Impeachment Acquittal 6:43 PM 05/19/2020 Elias Alierza | Fact Check: Reporter share on facebook tweet this show comments A viral Facebook post claims House Speaker Nancy Pelosi was in Wuhan, China, six days after "the impeachment HOAX failed." Verdict: False There is no record on Pelosi traveling to China in February. She had public appearances in Washington, D.C., on the day the post alleges she was there. Fact Check: Multiple Facebook users have shared posts claiming Pelosi was in the central Chinese city of Wuhan six days after the Senate acquitted Trump on two articles of impeachment, abuse of power and obstruction of Congress, on Feb. 5. "Pelosi was in Wuhan (sic) China 6 days after the impeachment HOAX failed," reads one such post. "Has anyone bothered to find out what she was doing there?" (RELATED: Did Nancy Pelosi Divert \$2.4 billion From Social Security To Pay For Impeachment?) Had Pelosi traveled to China at that time, major media outlets would have reported on it, yet none did so. Members of Congress must also file expenditure reports for official foreign travel with the House Clerk's office, and the foreign travel reports for the first quarter of 2020 show no record of Pelosi traveling to China. Pelosi made at least two public appearances in Washington, D.C., on Feb. 11, the day she was allegedly in China. She held a joint press conference with Senate Minority Leader Chuck Schumer and took photos with Democratic Missouri Rep. Emanuel Cleaver, according to press releases

Fact Check: Pelosi NOT In Wuhan, China, Six Days After Impeachment | Lead Stories Open full menu Go Fact Check Analysis Corrections Blue Feed Red Feed Corona Virus Fact Check: Pelosi NOT In Wuhan, China, Six Days After Impeachment Fact Check Apr 30, 2020 by: Gita Smith Share Tweet Wrong Place Was U.S. House Speaker Nancy Pelosi in Wuhan, China, six days after the impeachment proceedings against President Trump ended? No, that is not true. Not even close, according to government records... She was in California six days after the House impeachment -- and in Kansas City in plain view, six days after the Senate voted February 5, 2020, to acquit Trump. So, no matter which date is used, she was nowhere near Wuhan -- the believed site of the coronavirus outbreak. The post making the claim (archived here) came from Randall Thompson on Facebook on April 22, 2020. It says: Pelosi was in Wuhan [sic] China 6 days after the impeachment HOAX failed. Has anyone bothered to find out what she was doing there? This is what the post looked like on Facebook at the time of writing: Assuming the poster meant Trump's acquittal in the impeachment process, we'll start there. As to her whereabouts on Feb. 11, Pelosi was posing with Democratic U.S. Rep. Emanuel Cleaver of Missouri in Kansas City, appearing before news cameras. As to what she was doing, the two had just made a friendly wager on Super Bowl LIV between the San Francisco 49ers -- Pelosi's hometown team -- and the Kansas City Chiefs. Cleaver is the former mayor of Kansas City. They were talking football. Standing in public, in view of the media. She said: Good morning, everyone
